Atellio family: NCP105
Firmware and AUDAC Touch™ update

We would like to bring you another update about the Atellio family. Please make sure you are always running the latest version of AUDAC Touch™. You can find the latest versions here: https://audac.eu/eu/software/audac-touch

Release: December 6th
- NCP firmware version: 1.0.4

New features

- Luna GPO triggering via Luna event handler and NCP105
- Event handler settings backup and restore via file browser
- NCP105 supports custom (single) commands via commander function in AUDAC Touch™ for, Atellio family*, Consenso family* & third-party equipment. No visual feedback yet for custom commands via the Commander function.

Known limitations for the latest version (December 6th)

NCP105 series - V1.0.4
- Will initially only work with the LUNA & the NWP series.
- The devices to control should have a static IP address.

Release: October 31st
- NCP105 firmware version: 1.0.2

New features

- Firmware updates of NCP105 and NWP Series via AUDAC Touch™ on the same network.
- NCP105 button auto-calibration
- NCP105 bug fixes
    - Improved stability for simultaneous use of buttons

Known limitations for the latest version (October 31st)
