

PAM-TUNER/COMPACT DISC MODULE/DECK

FEATURES

PAM-T

- This unit is the PAM Series Module.
- The total 30 memory address in system can memorize the frequency of broadcasting.
- You can use the desirable frequency conveniently.
- Tuning Range(FM:87.5~108MHz, AM:522~1620KHz).

PAM-CDA

- This unit is the PAM Series Module.
- DIN-sized mobile CD player and detachable control panel.
- Shuffle play function to randomly select tracks.
- Various selection functions(track number search, track scan, repeat, random, music scan).

PAM-D

- DECK MODULE OF PAM SERIES AMPLIFIER
To use with PAN series amplifier(optional).
- AUTO REVERSE TO ALLOW CONTINUOUS PLAY BACK
This cassette deck employs high reliability auto reverse cassette deck for endless cassette playback.
- FRONT LOADING TYPE
For the convenient use of system adapted front loading type.

SPECIFICATIONS

PAM-T

*0dB=0.775Vrms

ELECTRICAL

- Tuning Range.....FM:87.5~108MHz, AM:522~1620kHz
- Antenna Input.....FM:300Ω BAL, 5Ω UNBAL
AM:Low Impedance
- Usable SensitivityFM:2 μV, AM:12 μV
- S/NFM:60dB, AM:50dB

GENERAL

- Weight.....1.5kg
- Dimensions184(W) × 55(H) × 93(D)mm

PAM-CDA

ELECTRICAL

- S/N(At rated transformer output, 1kHz).....70dB
- T.H.D(At rated transformer output, 1kHz).....0.1%
- Frequency Range(At rated transformer output)
.....100Hz~20kHz, ±3dB
- Mechanism Life Time.....2000H(over)

GENERAL

- Weight.....2.5kg
- Dimensions.....184(W) × 55(H) × 194(D)mm

PAM-D

ELECTRICAL

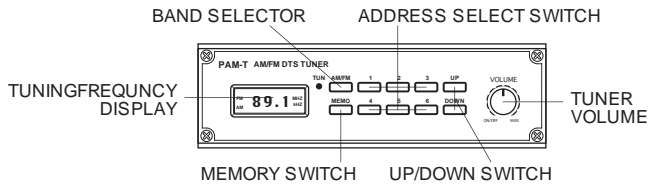

- S/N45dB
- T.H.D3%
- Frequency Response.....100Hz~6.3kHz
- Tape4.76m/sec

GENERAL

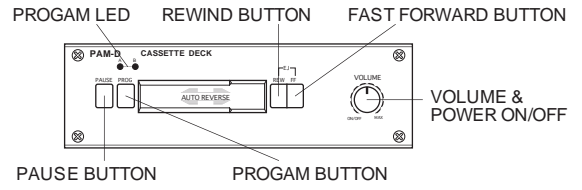

- Power Source+18V(from PAM AMP)
- Weight.....950g
- Dimensions.....184(W) × 55(H) × 194(D)mm
