<b>Support depth</b>	from 280 to 385 mm
<b>Support width</b>	from 350 to 530 mm
<b>Type</b>	black
<b>Weight</b>	1.58 kg

The new amp stand can hold monitors, amps or other equipment to a max. weight of 35 kg without a problem. The angled front legs have significantly improved the stand's stability and strength. The low centre of gravity ensures even larger amps are securely displayed. The fine adjustment on the supporting leg allows a tilt between 15 and 28 degrees. A microphone can be attached to the telescopic tube using a boom arm with a thread of either 3/8" or 5/8". Folds compactly.
