PROCAB

Slimline

Smart or slim cable management. Why not both?

Cables
You Can Rely On

All the solutions PROCAB offers share one common goal: providing the most inspiring connections for tomorrow's users.

Over the years a highly specialised team of cabling and electronics engineers was assembled to assure that PROCAB remains at the forefront of innovation. This group of enthusiastic audiophiles dedicate their insight and relentless effort to satisfy anyone from the average home users to the most demanding professionals. This results in a wide range of unique connectors and audio, video, digital and power cables available in pre-made and bulk.

PROCAB currently offers over 4.000 different high-quality products and configurations split up in 2 major categories: AV & IT and Rental & MI.

YOUR IDEAL PARTNER IN CONNECTIVITY

Our core values

These principles form the building blocks for our wide and inspiring range of professional connections.

Qualitative connections

Every PROCAB connection is comprehensively checked to ensure an outstanding signal transmission.
Long term relationships

Our certified network that are located in over 100 different countries allows us to provide you with the best possible support, expertise and product delivery.

An extensive range

Over 25 years of expertise has led us to build a very extensive product portfolio of more than 4000 references.

READY FOR THE FUTURE

Our vision

All the solutions PROCAB offers share one common goal: providing the most inspiring connections for tomorrow's users. With a highly specialized team of engineers PROCAB is able to remain at the forefront of innovation.

STRATEGIC OBJECTIVES

Our mission

Our position in the market as a complete connectivity provider is standing out from the crowd thanks to our wide range of AV & IT solutions as well as our deep and extensive database of the rental & MI connections. This allows us to move across a border where many competitive brand do not reach for.

OUR PLAN OF APPROACH

Our strategy

In order to achieve these strategic objectives, innovation is our most important driver. Providing inspiring connections together with the ability to listen to the different needs of the market form the base of our plan of approach.

PROCAB By Application

At PROCAB we have dedicated the last 25 years to providing the connectivity market with inspiring connections for tomorrows users. Since our range orientates itself so widely in satisfying the connectivity market demand, we split up our solutions based on the needs of our two core markets. AV & IT and Rental & MI.

This division based on application level is a philosophy, that can be found throughout our communication, to make the choice of our users as easy as possible.

AV & IT

Rental & MI

A stunning line of installation cables and connections that will satisfy any AV integrator. Specially designed to meet the highest level of installation convenience and reliability.

Offering you a wide range of connections which withstand the harshest use and abuse that any rental or mobile application can throw at them.

Introducing up to

45% thinner cables

for even cleaner installations

These sleek data cables offer unparalleled performance for your permanent setups while preserving an incredibly thin cable design. Ranging from USB Type-C cables up to 5 meters long to CAT7 multi-colored patch cables for tidy rack installations, this unique collection encompasses more than just data cables. It also features video cables capable of handling up to 8K resolution.

Extremely flexible

Extra slim design

Short cable lengths

A sustainable solution

Unmatched performance

Neat & clean cable routing

Save space & better airflow in your rack

Optimized airflow

What makes our
AV & IT solutions unique?

At PROCAB we believe in connections you can rely on. That is why we guarantee an optimal signal transmission that lets you focus on new AV solutions that are to come.

Connectivity

Since we are convinced of the lifespan of our connections, we have developed an extensive warranty policy to create the best possible relationship with our partners.

Reliability

By carrying out extensive tests on our wide range of cables, we are confident that you can leave the installation with great trust and avoid any connection servicing.

Safety

We certify our connections with the highest quality standards, enabling us to exceed any safety regulation in the market.

Slimline cables, sustainability at its core

Innovatively crafted from sustainable TPE outer-jacket material. These cables prioritize recyclability, being more easily recycled than PVC counterparts. Halogen-free and low in toxicity, TPE ensures a safer and environmentally conscious choice. With lower energy consumption during production and a potential for biodegradability, PROCAB champions a greener future in cable technology.

Additionally, the slimline cabling packaging is kept to a minimum and made entirely of recyclable cardboard, further reducing environmental impact and promoting sustainable practices.
Premade
Data
With network cables (also known as internet, LAN, or Ethernet cables), you connect your equipment to a network or the internet. There are different categories of UTP cables, namely CAT5e, CAT6, CAT6a and CAT7. CAT5e and CaT6 can both handle speeds of up to 1000Mbit/s and are suitable for Gigabit Ethernet. CAT6A & CAT7 are capable of supporting data transfer rates of up to 10Gbps at a maximum bandwidth of 600MHz.

Highlights

✓ Ultra slim Ø 3.2 mm diameter
✓ PoE tested and approved (IEEE 802.3 af)
✓ Low smoke & halogen free construction (TPE material)
✓ CAT6A U/UTP design
✓ Tested up to 500 Mhz
✓ Thin, flexible and smooth cable jacket
✓ Time and space saving in rack applications
✓ Better airflow due to slim design
✓ Elegant for office patch usage
✓ Snagless & compact connector

Series overview

PROCAB's cable series offers premium-quality, versatile cables designed for audio, video, and data transmission needs. Renowned for reliability and performance, these cables provide seamless connectivity across various professional setups, ensuring optimal signal transfer and durability.

AV & IT

Rental & MI

Bulk & accessories

CONNECT SERIES

This series will provide you with 'Class A Standard' quality cable solutions, highly focused on Slimline design cables with simple and elegant connector design.

BASIC SERIES

These reasonably priced cables can be used for fixed installations as well as mobile applications. Consists of a complete line of audio, video and data cables.

BULK & ACCESSORIES

Everything you need to build your own audio, video and data connections together with all the needed accessories for cable management for fixed installations.

CLASSIC SERIES

Offers a stunning line of cables and adapters that will satisfy any AV integrator. Not only the design but also the quality of the cables themselves is unheard of in this price range.

PRIME SERIES

This series is specifically designed to withstand the harshest use and abuse that any rental or road application can throw at them. The highest class in reliable cables.

CONTRACTOR SERIES

intended to be used in applications where CPR classification EN50575 is required. This way you provide the safest possible solution to installed cabling.

POWER SERIES

Pre-made high quality power cables, power bars and cables reels fitted with Powecon, Schuko, CEE and Euro connectors for connected to the mains.

POWER SERIES

Pre-made high quality power cables, power bars and cables reels fitted with Powecon, Schuko, CEE and Euro connectors for connected to the mains.
